

## Nereid Boat Club

# PASSAIC RIVER ACCESS: COVID-19 PROTOCOLS

May 28, 2020

These protocols are intended to establish minimum requirements for individuals using the Club's facility as a launch site for rowing. Failure to comply with these requirements may result in revocation of your access privileges.

- Masks should always be worn on land. Members can remove masks once on the water but must put them back on when returning to the dock.
- Individuals should always maintain social distancing of at least six (6) feet in all areas when social distancing is required.
- Members should use the gate on the north side of the Club to enter the facility; and use the east side gate to exit.
- The boathouse is not open to members. Boat bays may be opened **solely** to access boats, oars, and related equipment. Congregating in the boat bays is not permitted.
- Training should focus on a "get in, train, get out" approach, minimizing unnecessary contact.
- Training is allowed in singles (1x) only in order to maintain proper social distancing; individuals living in the same residence (husband/wife, siblings, parent/child) may take out a double. No other team boat rowing is permitted.
- Members must register for a designated rowing time slot on the Club's reservation system. Members who have not reserved a time slot, and who have not signed the Club's required waiver, may not enter the premises.
- Members should continue signing in and out on the logbook.
- All athletes, coaches and staff should sanitize or wash their hands with soap for at least 20 seconds upon arrival and should follow hand-washing protocols regularly.
- No personal items should be stored at the boathouse. All personal items must remain in the individuals' vehicle or be brought in the boat with them.
- Any individual known to have been exposed to a person who has been sick and/or diagnosed with COVID-19 must self-report to a designated person at the club if the rower was physically present at the boathouse within the prior 14 days, and the individual must self-quarantine for 14 days before returning.
- All individuals must self-monitor for symptoms of COVID-19 daily. Each person should take their temperature daily prior to arrival at the boathouse. If their temperature is 100.4 degrees or over, the person should not come to the boathouse.
- If an individual has had a documented case of COVID-19, they will need a note from their doctor indicating they are cleared to resume participation in training.
- All oars should be wiped down with disinfectant before and after use. All boats should be thoroughly cleaned after each use.
- When launching/landing, social distancing should be maintained. Multiple boats on the dock should be allowed only if proper social distancing requirements can be met.
- Members must follow state and local guidelines pertaining to parks and public waterways when at the boathouse and on the water.
